

POWERHOUSE GUARDIANS

Turn Security Threats into Productivity Gains™

CAPABILITY STATEMENT

AI SURVEILLANCE · ACCESS CONTROL · CLOUD VIDEO · LOW-VOLTAGE
(469) 927-6524 · powerhouseguardians.ai

COMPANY OVERVIEW

Powerhouse Guardians Corp. is a Texas-licensed commercial security technology integrator serving the Dallas–Fort Worth Metroplex. PGC retrofits and enhances existing security infrastructure with AI integration — keep the cameras, access control, and alarm systems already in place, and layer AI capability on top. Where infrastructure does not yet exist, PGC designs and installs complete new systems under a single contract.

Transform passive security cameras into proactive security intelligence.

CORE CAPABILITIES

AI Video Surveillance

Event-based analytics, real-time alerts, video search, and incident review.

Camera System Modernization

Commercial camera design, coverage review, upgrades, and compatible-system reuse.

Cloud Video Management

Secure remote access, multi-site visibility, user management, and scalable VMS options.

Electronic Access Control

Readers, mobile credentials, door status alerts, gates, audit trails, and cloud management.

Alarms, Verification & Remote Monitoring

Commercial intrusion detection, door contacts, motion, video-verified alerting, and event-driven escalation workflows.

Intercom & Mass Notification

Entry and multi-tenant intercom, door-release integration with access control, and emergency notification workflows.

Low-Voltage Infrastructure

Structured cabling, fiber backbones, pathways, racks, AV and display cabling infrastructure, testing, and system connectivity.

Mobile Surveillance Trailers

Rapidly deployable camera solutions for construction and temporary site coverage.

DELIVERY APPROACH

01

ASSESS

Site conditions, existing cameras, access points, and coverage gaps.

02

DESIGN

Device schedules, drawings, and a practical, scalable technology plan.

03

INTEGRATE

Cameras, access, alarms, cabling, and network — installed and commissioned.

04

SUPPORT

Training, as-builts, documentation package, and ongoing service.

INDUSTRIES SERVED

Multifamily

Warehouse & Logistics

Retail & Restaurant

Construction Sites

Schools & Public Sector

Commercial Office

Healthcare & Clinics

Parking & Garages

NDA \$889-compliant hardware options available for federal, HUD, and institutional requirements. · BICSI-aligned structured cabling practice · Documented commissioning, as-builts, and closeout

COMPANY DATA

Legal Name	Powerhouse Guardians Corp.
Security License	#B30802201
SAM UEI	QYHDB99766G3
CAGE Code	11ZQ8
SBE	#WMSB09255N0827
SBE-Plus	#WMSB79966N0827
Insurance	GL · Umbrella · Auto · WC · Professional Liability · Cyber · Bondable

SELECTED NAICS

561621	Security Systems Services
541512	Computer Systems Design Services
541519	Other Computer Related Services
517110	Wired Telecommunications

KEY DIFFERENTIATORS

- AI-first modernization — add analytics and cloud workflows to compatible existing camera systems.
- Integrated delivery — video, access control, alarms, cabling, and network under one contract.
- Commercial focus — solutions shaped around property operations, evidence quality, and incident response.
- Scalable systems — single-site and multi-location deployments across varied facility types.
- Experienced leadership — 25+ years combined technology and security systems experience.

PAST PERFORMANCE

- Dallas ISD — security integration services (IDIQ, awarded March 2026)
- Denton ISD — CTE supplies, software, and services (IDIQ, awarded March 2026)
- Commercial construction — site surveillance and temporary-site security systems
- Multifamily & commercial retrofit — AI overlay on existing camera infrastructure

WHAT HAPPENS NEXT

PGC reviews site conditions, existing camera infrastructure, access points, alarm needs, and operational priorities before recommending a practical technology plan and final scope.
